## Dear expectant mothers, Dear parents-to-be,

Our maternity hospital focuses on pregnancy and delivery to make sure that both are an amazing experience. In addition to our years of extensive experience, we also offer modern and individual assistance according to the highest standards of medical care in our five spacious delivery rooms. Providing a relaxed and family-friendly atmosphere is of great importance to us. Should an exceptional case arise that requires immediate medical assistance, a surgical team and operating room that is specifically equipped to perform a Cesarean section is available. A pediatrician is also immediately available.

This makes it possible for us to offer the ideal conditions for a safe and secure delivery.

### Dr. Wouter Simoens

Head physician  
 Obstetrics and Prenatal Care  
 Specialized in Special Care Obstetrics and Prenatal Care  
 DEGUM II-Seminar instructor
